

Before start PC, put USB memory

The basic HTML

School Net Japan
Naoto Kurimoto

Today's Goal

- Understanding the basic structure of **HTML**
- How to use basic **HTML** tag

, , <center>, <table>,
 <hr>, <a href>, , etc...
- Making the introduction web page
- **HTML** = **H**yper **T**ext **M**akeup **L**anguage

The basic structure of HTML

<html>

<head>

</head>

<body>

</body>

</html>

The basic structure of HTML

<html>

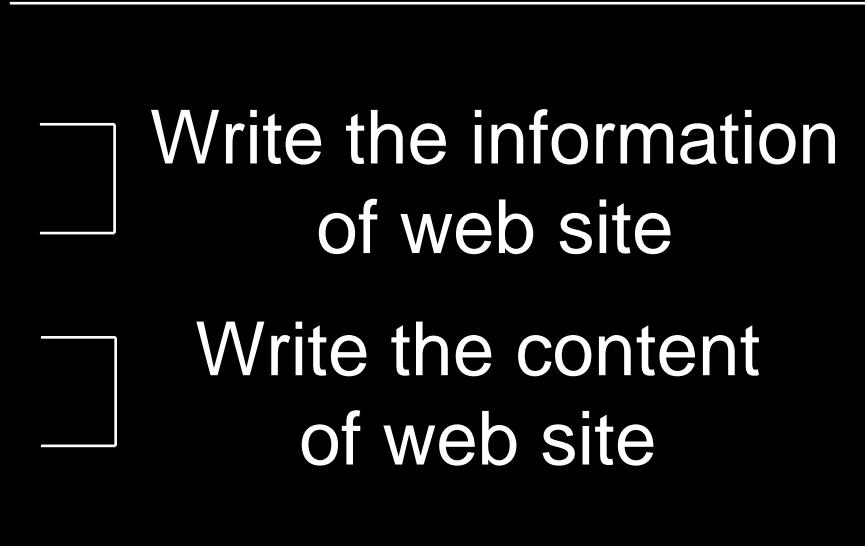

<head>

</head>

<body>

</body>

</html>

From <html>
to </html> is
all.

Practice 0

- Start “Bluefish”.
 - Applications → Programming → Bluefish Editor

Practice 1

- Type The basic structure of HTML

```
<html>  
<head>  
</head>  
<body>  
</body>  
</html>
```

- Save to your USB memory as the “index.html”

`<html>`
`<head>`
`<title>Self-Introduction of your name</title>`
`</head>`
`<body>`
`</body>`
`</html>`
- Save!
- What is changing ?

Practice 4

- Type & add from `<body>` to `</body>`! The part of yellow is yours.

...

```
<body>
```

Self-Introduction

My name **Naoto Kurimoto**

My school **TAKI high School**

My face **naoto.JPG**

My essay **naoto.html**

```
</body>
```

```
</html>
```

- Save!
- **What is strange?**

Practice 5 You need `
`

- Type & add `
`

...

```
<body>
```

```
Self-Introduction<br>
```

```
My name Naoto Kurimoto<br>
```

```
My school TAKI high School<br>
```

```
My face naoto.JPG<br>
```

```
My essay naoto.html
```

```
</body>
```

```
</html>
```

- Save!
- What is changing?

Practice 6 You need `` to change the size & color of text

- Type & add ``

...

```
<body>
```

```
<font size="7" color="red">Self-Introduction</font><br>
```

```
My name Naoto Kurimoto<br>
```

```
My school TAKI high School<br>
```

```
My face naoto.JPG<br>
```

```
My essay naoto.html
```

```
</body>
```

```
</html>
```

- Save!
- What is changing?

Practice 7 You need `<center>` to center the text

- Type & add `...`

...

```
<body>
```

```
<center>
```

```
<font size="7" color="red">Self-Introduction</font><br>
```

```
My name Naoto Kurimoto<br>
```

```
My school TAKI high School<br>
```

```
My face naoto.JPG<br>
```

```
My essay naoto.html
```

```
</center>
```

```
</body>
```

```
</html>
```

- Save!
- What is changing?

Practice 8 You need `<table><tr><td>` to make the table

- Type & add `<table><tr><td>` to make the table

...

```
<body>
<center>
<font size="7" color="red">Self-Introduction</font><br>
<table>
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
<tr><td>My school</td><td>TAKI high School</td></tr>
<tr><td>My face</td><td>naoto.JPG</td></tr>
<tr><td>My essay</td><td>naoto.html</td></tr>
</table>
</center>
</body>
</html>
```

- Save!
- What is changing?

Practice 8' You need **border=" "** to make the border line

- Type & add `<table border=" " ><tr><td>` to make the table

...

```
<body>
<center>
<font size="7" color="red">Self-Introduction</font><br>
<table border="1">
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
<tr><td>My school</td><td>TAKI high School</td></tr>
<tr><td>My face</td><td>naoto.JPG</td></tr>
<tr><td>My essay</td><td>naoto.html</td></tr>
</table>
</center>
</body>
</html>
```

- Save!
- What is changing?

Practice 9 You need `<hr>` to make the horizontal line

- Type & add `<table border=" " ><tr><td>` to make the table

...

```
<body>
<center>
<font size="7" color="red">Self-Introduction</font><br>
<hr>
<table border="1">
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
<tr><td>My school</td><td>TAKI high School</td></tr>
<tr><td>My face</td><td>naoto.JPG</td></tr>
<tr><td>My essay</td><td>naoto.html</td></tr>
</table>
</center>
</body>
</html>
```

- Save!
- What is changing?

Practice 10 You need `` to make the link

- Type & add `<table border=" " ><tr><td>` to make the table

...

```
<hr>
```

```
<table border="1">
```

```
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
```

```
<tr><td>My school</td><td><a href="http://www.taki-  
hj.ac.jp/">TAKI high School</a></td></tr>
```

```
<tr><td>My face</td><td>naoto.JPG</td></tr>
```

```
<tr><td>My essay</td><td><a href=naoto.html>"Great Nepal !  
Beautiful Nepal !" </a></td></tr>
```

```
</table>
```

...

- Save!
- What is changing?

Practice 11 You need `` to put the image data

- Type & add `<table border=" " ><tr><td>` to make the table

...

```
<hr>
```

```
<table border="1">
```

```
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
```

```
<tr><td>My school</td><td><a href="http://www.taki-hj.ac.jp/">TAKI high School</a></td></tr>
```

```
<tr><td>My face</td><td></td></tr>
```

```
<tr><td>My essay</td><td><a href="naoto.html">"Great Nepal !  
Beautiful Nepal !"</a></td></tr>
```

```
</table>
```

...

- Save!
- What is changing?

Practice 12 You need **bgcolor=** to change the back ground color

- Type & add `<table border=" " ><tr><td>` to make the table

```
<body bgcolor="black">
```

```
...
```

```
<hr>
```

```
<table border="1">
```

```
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
```

```
<tr><td>My school</td><td><a href="http://www.taki-hj.ac.jp/">TAKI high School</a></td></tr>
```

```
<tr><td>My face</td><td></td></tr>
```

```
<tr><td>My essay</td><td><a href="naoto.html">"Great Nepal !  
Beautiful Nepal !"</a></td></tr>
```

```
</table>
```

```
...
```

- Save!
- What is changing?

Practice 13 You need **width & height** to change the back ground color

- Type & add `<table border=" " ><tr><td>` to make the table

...

```
<hr>
```

```
<table border="1">
```

```
<tr><td>My name</td><td>Naoto Kurimoto</td></tr>
```

```
<tr><td>My school</td><td><a href="http://www.taki-hj.ac.jp">TAKI high School</a></td></tr>
```

```
<tr><td>My face</td><td width="150" height="100"></td></tr>
```

```
<tr><td>My essay</td><td><a href="naoto.html">"Great Nepal ! Beautiful Nepal !"</a></td></tr>
```

```
</table>
```

...

- Save!
- What is changing?
